Objectives

- None

Faculty Disclaimer

The OAFP has selected all faculty appearing in this program. According to OAFP policy, all relationships between speakers and proprietary entities will be disclosed.

*The speakers returned a disclosure indicating that they or an immediate family member **do not have** a significant financial interest in or affiliation with a commercial supporter of this educational activity and/or with the manufacturer(s) of commercial products and/or providers of any commercial services discussed in this educational presentation/material.*

They listed (if applicable) commercial enterprises and the nature of relationship with each, e.g. research grants, stock or bond holdings, speakers' bureau, employment, ownership or partnership, consulting fees, other remunerations (honoraria, travel expenses):

Corporate Organizations

None

Financial Interests/Affiliations

None

The content of this/these material(s)/presentation(s) in this CME activity **will not** include discussion of unapproved or investigational uses of products or devices.

Connecting Communities through HIE

Jonathan Kolarik, RN MBA
Director of Health Information Technology
Oklahoma Foundation for Medical Quality

What's in an EHR?

- Clinical documentation/decision-support
- Rx writer/medication management
- Preventive health
- Patient education
- Reporting tools
- Intra-office communication tools
- Interface capability

"Meaningful Use" in a Nutshell

"Demonstrates that the provider makes use of, and the patient has access to, clinically relevant electronic information about the patient to improve medication management and coordination of care."

Markle Foundation Report April 2009

Physician Office

- ⌘ Big Picture Early Wins for Physician's
 - Local Adoption of EHR's
 - Assist Physicians in preparation for P4P
 - E-prescribing Initiatives 2% Medicare Bonus
 - PQRI 2% Medicare Bonus
 - Preparation for "Meaningful Use" and ARRA payments

Hospital

- ⌘ Big Picture Early Wins for Hospitals
 - Can join owned practices with private practices to avoid duplication of efforts and share resources/experts
 - HIE Coordination and can establish the hospital as a key stakeholder in regional networks
 - Preparation for Meaningful Use and ARRA payments
 - Increased outreach opportunities to referring physicians and PHO's

Community HIE/Network

- ⌘ Shared Benefits
 - More accurate problem and medical lists
 - Medication reconciliation
 - Reduction in adverse medication reactions
 - More accurate drug allergy lists
 - Reduced duplication of testing
 - Capability to interact with personal health records
 - ED, Intensivists, Hospitalists, EMS
- ⌘ Bottom Line: Improved Quality, Reduced Cost

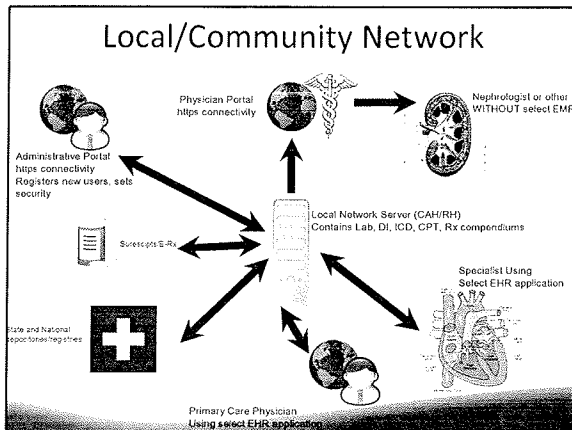

Core Concepts of HIE

- Implications for Health Care
 - Improved Patient Safety
 - Improved Quality of Care
 - Cost Containment- Less Duplication
 - De-Fragments Medical Records
 - Care Of The Uninsured

CCD

- Elements of the CCD (Clinical Care Document)
 - Demographics
 - Medication List
 - Drug Allergies
 - Encounter History
 - Labs
 - Vitals
 - Diagnosis/Problem Lists/ICD 9's
 - Improved Patient Access to the Medical Record

Local/Community Network

**Participating Hospitals in the
Oklahoma City Metro**

- ❖ OU Medical Center
- ❖ St Anthony's
- ❖ INTEGRIS Canadian
- ❖ Norman Regional
- ❖ Edmond Medical Center
- ❖ INTEGRIS Baptist
- ❖ Moore Health Center
- ❖ INTEGRIS Southwest
- ❖ Midwest Regional
- ❖ Mercy Health Center
- ❖ Oklahoma Heart Hospital

Rural Connectivity Issues

- ❖ Rural Connections and Broadband
- ❖ Wireless Options
- ❖ ASP Options

EHR/HIE Finish Line

- ❖ Create patient accountability in their care and a viable medical home model
- ❖ Disease management and public health initiatives
- ❖ Health as a daily function of our lives
- ❖ Tear down the walls that create transitions of care
- ❖ Reduce overall healthcare expenditures
