

LIFESTYLE STRESS REDUCTION

Stress is unavoidable. How we think about it and how we react to it makes the difference in how it impacts our self-care and our health. While some medicine may help to manage stress, there are many things that you can do to help you manage stress and improve overall health. Partnering with your health care team can help you determine a plan of action for stress reduction.

SET GOALS!

Specific - What are you going to do to manage your stress?

Measurable - How much time, how many sessions?

Attainable - Do you have what it takes to follow through?

Realistic - What can you actually do? (improvement over perfection)

Time-Connected - How frequent?
How long will you commit?
